Hello Ms. Navarro,

As a follow-up to our conversation this afternoon, and pursuant to rights under the California Public Records Act, I am requesting copies of the following documents which I believe are likely held by LA Sanitation:

- Average Solid Waste Generation Rates, City of Los Angeles, April 1987
- City of Los Angeles Solid Waste Management Policy Plan, 1993
- 1995 Annual Report on Disposal and Diversion in the City of Los Angeles, City of Los Angeles, Integrated Solid Waste Management Office, 1995

These are the references as found in various County of Los Angeles solid waste documents I've reviewed. I believe these three documents are each reports that were prepared either by City staff directly, or for the City by consultants.

If I can provide any clarification that will help expedite your attention to my request, please contact me at joelerich@flo-analytics.com or 503-758-3057.

Regards,

JERRY OELERICH | FLO Analytics
